

Reverse Engineering Nifty Indices Private API

1. Visiting Page: <https://www.niftyindices.com/reports/historical-data>

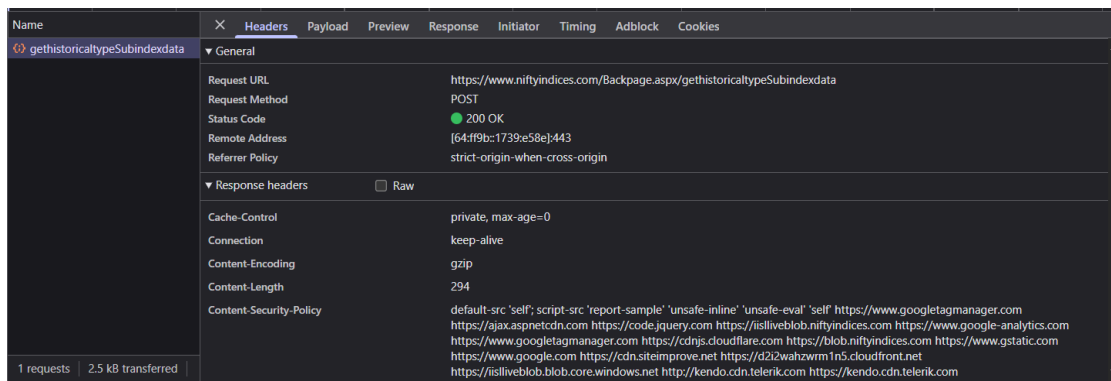

- Cleared the Network Activity Tab, this output in the Network tab is just pure raw website seen, no requests made by the website.

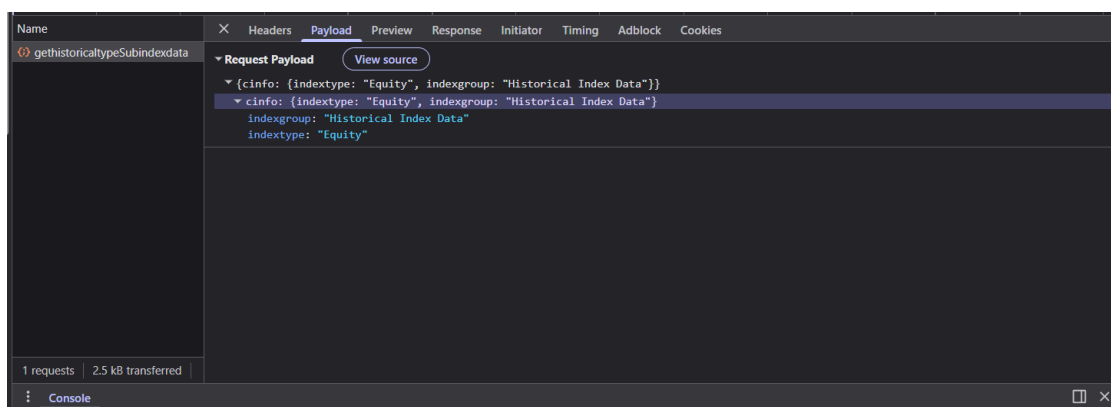

2. Selecting the Index Type from first Drop Down Menu

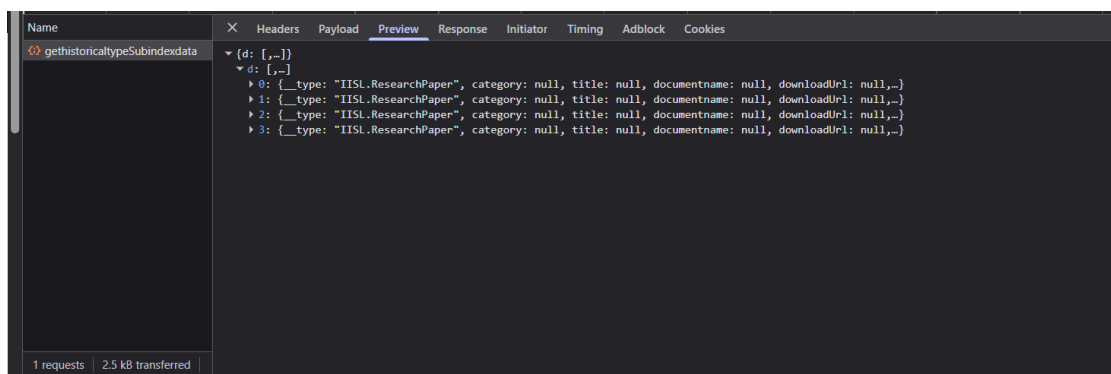

- A Request in the tab appeared when first clicked as "Equity" as the index type.

- Header for the following URL

- Request Payload for the following URL

- Preview of the following URL

```
{
  "d": [
    {
      "__type": "IISL.ResearchPaper",
      "category": null,
      "title": null,
      "documentname": null,

```

```

```

- Response of the above URL

4. Selecting the Index from drop down list of Indices

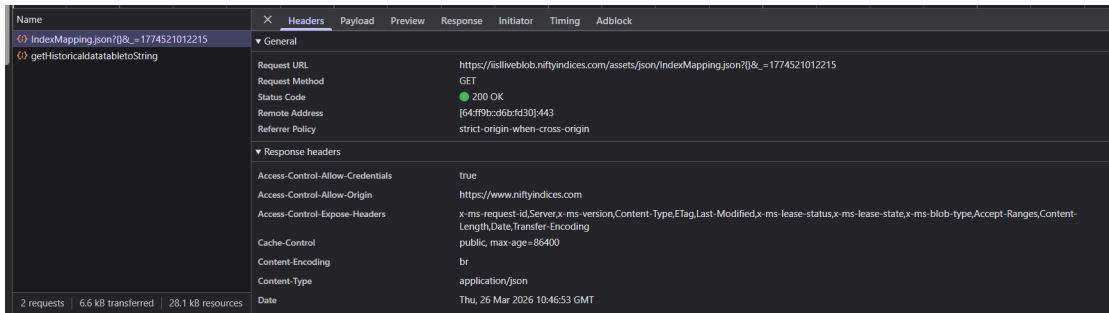

- No activity in the network tab even after selecting the Index as you can see.

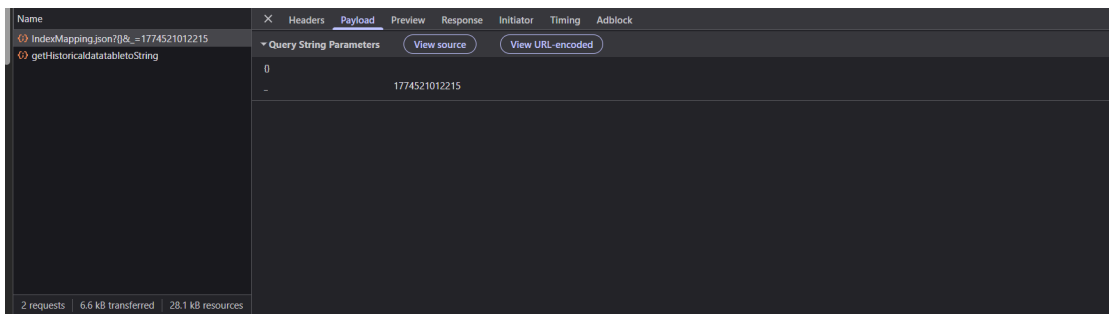

5. Clicking the Submit Button finally

- Two URLs appeared as you can see

- First request Headers

- First Request Payload
